

What do you get in return?

- **Credential Tracking & Verification**—

We do the heavy lifting on keeping track of your continuing education credits and providing certification verification to third parties.

- **Licensure Resources**—Working in a licensure state? We keep on top of all the rules and regulations, so you'll know what you need to keep your licensure current.

- **Professional Integrity**—We enforce a Code of Professional Responsibility not only to help protect you and your patients but to elevate the standards for the entire profession.

- **Professional Advocacy**—Marketing the importance of your credential.

- **OP&P Career Awareness Initiative**—a

brand new program launching in early 2022 to raise the profile of the profession with students, educators and influencers. Not only making your credential more recognizable, but encouraging tomorrow's workforce to choose a career in OP&P.

- **O&P Alliance**—Working with other leaders to improve the practice of OP&P.

- **A higher salary!** ABC certified individuals make on average 17% more than non- or other credentialed providers.

What else does ABC do for you and the profession?

- **Conduct practice analysis surveys and studies** to develop future exams, influence curriculum and set standards for the profession.

- **Administer 2000+ exams each year**, bringing the future of OP&P into the workforce and setting the bar for excellence.
